Pavement Crack Sealing

What is crack sealing? How do we (the City) benefit from it? Crack sealing is used to fill individual pavement cracks to prevent entry of water or other substances such as sand, dirt, rocks, or weeds. According to Crafcro, approximately 75% of non-treated cracks in asphalt pavement form into potholes within 3 years whereas approximately only 1% of treated cracks that have been sealed will form into potholes within 3 years. Crack sealing treatment can slow the rate of crack formation in pavements over time.

In recent studies sealing cracks in pavement (crack sealing) has proven to be the lowest cost pavement preservation treatment available by far. The next lowest cost pavement preservation is a single chip seal which is approximately 4 times more expensive. A dollar spent crack sealing returns more benefit than a dollar spent with other preservation treatments.

Farewell Austin

Austin St John, our City Administrator is leaving Marysville for another city. He and his family will be here through the end of September. He will start his new job in October in Mulvane.

Austin has been with the City since 2016.

We want to wish Austin, Michlynn, Tagert & Scarlet the best of luck in the future and enjoy their new life experiences.

Decorative Devices at the Cemetery

The City is requesting that all decorative devices that are not a permanent part of the stone be removed as soon as possible. If they are not removed by December 1, 2023 city staff will remove them.

According to City Code 12-411 the cemetery board has the right to prevent the erection of any structure or other decorative device which it deems detrimental to the general appearance of the cemetery, or which would tend to hinder the proper care of the cemetery. (Ord 396, Sec 15)

Economic Development!

Do you own a house or structure that you've been wanting to tear down?

If your structure meets the criteria the City of Marysville has in Ordinance 1867 you might be eligible for some financial assistance in the cost of tearing down the structure. If you have any questions please call City Hall. We'd be glad to answer any questions.. See Ordinance 1867 at www.cityofmarysvilleks.com. If you have any questions stop in or give us a call at 785-562-5331.

Lagoons

Project

The upcoming lagoon and wetlands project, scheduled to commence construction in late 2023 or early 2024, marks a significant milestone in our commitment to upgrading our wastewater infrastructure and provide for future growth in Marysville.

One of the primary aspects of this project involves the addition of a new lagoon cell to our wastewater treatment system. This expansion aims to increase our capacity to handle wastewater more efficiently as our city continues to grow. The new lagoon cell will ensure that the treatment process is not only effective but also environmentally conscious.

In addition to the new lagoon cell, the project includes the creation of a designated wetlands area. Wetlands are vital ecosystems that provide a host of ecological benefits, including water purification and wildlife habitat. By incorporating a wetlands area into our city's wastewater treatment, we are not only enhancing biodiversity but also contributing to the overall health and resilience of our environment. This wetlands area will serve as further filtration of the wastewater before the water is reintroduced to the ground water.

One of the most remarkable aspects of this initiative is the transition towards a non-discharging wastewater system. This shift represents a significant step forward in our efforts to minimize our impact on local water bodies and ecosystems. Instead of releasing treated wastewater into the nearby river, our upgraded system will recycle and repurpose water within the lagoon and wetlands. This innovation aligns with modern best practices for wastewater management.

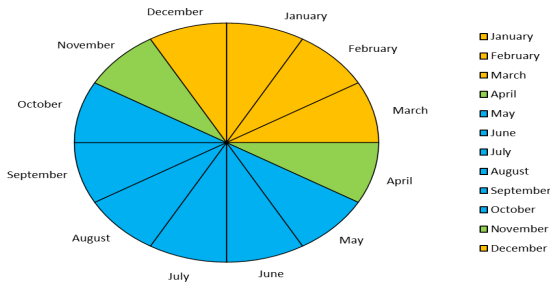

The project will be constructed over the next year and will not interfere with current operations of the wastewater treatment.

DUE DATES FOR WATER/SEWER BILLS

For your convenience we have an after hours drop box located on the south side of the front doors at City hall. As a reminder, bills are due the 22nd of each month. If the date falls on a Saturday or Sunday, the bill is due the following Monday by 8:00 am.

For Water Emergencies after hours/weekends please call the Marshall County Sheriffs Office at 785-562-3141

Sewer Charge Schedule

= Not on Set Sewer and Not Used in Average
 = On Set Sewer
 = Months Used For Set Sewer Average

The Months of November through April usage will reflect actual usage billing to sewer. From May to October, usage will reflect an average of sewer from December to March.

Pony Express Gravel Dash — Sept. 9th
 Highway 36 Treasure Hunt — Sept. 14th thru the 16th
 Community Blood Drive — Sept. 28th — Am. Legion 12-6pm
 Black Squirrel Night—Oct. 26th

**FALL CLEAN-UP

Dump Hours
9:00 am till dark – 7 days a week

Address Numbers

Does your home or business have its address number clearly visible from the street? Does your home or business have numbers at all? If you can't see your address number or need to put on numbers, the city has reflective numbers for you to put on your building for **FREE!** Just stop by City Hall and pick them up during business hours.

Having clear and visible numbers on your building is important as it helps emergency vehicles identify where they need to go. In an emergency, every second counts! Having identifiable address helps cut response time.

The Marysville City Council meets on the 2nd and 4th Mondays of each month at 7:00 p.m. Meetings are open to the public or you can watch on our facebook page <https://www.facebook.com/cityofmarysvilleks/> and may be viewed online at www.cityofmarysvilleks.com and BTV on Wednesdays & Sundays at 7p.m.

Change/Update Utility Account Holder Ordinance No 1893

ARTICLE 1. Section 15-122 of the 2020 Code of the City of Marysville is amended to read as follows:

(b) Change of Account Holder. Should the holder of a utility account die or leave permanently, the person still residing therein shall establish service under their name within 30 days of the triggering event.

- (1) In the case of a death, a spouse continuing to live at the residence shall be named as the account holder on the existing account without need for a service connection fee, but an account application is required.
- (2) In the case of the account holder permanently leaving the residence, the remaining resident shall make application for the utilities to change to a new account under their name. All requirements for service connection fees shall apply.
- (3) A triggering event shall include absence from the residence for 30 calendar days or death.
- (4) Should the sole account holder die, and the premises is inherited, rented or sold to another party a new account must be established for service.
